

# TOMAS

TOMAS TECHNOLOGY PTE LTD

**ELECTRONIC SENSOR  
TYPE LASER LEVEL**

**Super-Brightness  
AQUA GREEN  
LASER**

IP 54 dust & water proof

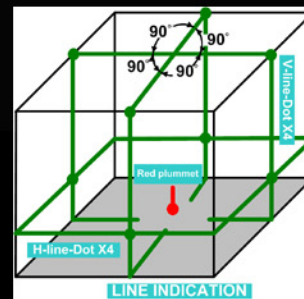

Low power LED and regularity IC province power input

Electronic sensor type using High resolution tilting sensor and micro stepping motor to offer brilliant accuracy control when vibration

Adapt German Osram Aqua green laser diode

Line Type	4V4H8P
Line Source	line: 520nm /10 mw Green Laser diode, Laser class: Class 2M , Output power :less than 1mw
Line Width	1.5 mm /5M
Accuracy	±1mm / 7m
Self leveling Range & Type	±5°, laser line blinked if over range ,Electronic sensor type
Rotating	360° full range fine adjusting
Operating time	3 hours with Li-ion battery
Working Range	Radius: 40~50M (detector mode)
Power	Li-ion battery 3.8 A

**AQUA GREEN LASER  
AD-808G  
SENSOR DOT**
